Honourable Colleagues,

It is a welcome opportunity for me as one of the participants of FIP 98 to represent the "RAD" Holding Company from Belgrade, Yugoslavia, and especially the Designing Department "RAD" which is within the Holding Company, and of which I am the Manager.

The Company has been established in 1947 and since then it continuously and intensely carries on the design, construction, engineering and consulting work. The Designing Department "RAD" has in the past period of time done a large number of designs which have been executed and constructed by the Company "RAD". Requests of the Investors, from the country and abroad, are fully encompassed and respected in such manner, practically in all parts of the world where the Company has designed and constructed in the past time period. Special sphere where the Company holds high position is highrise construction where it represents one of the greatest companies in the country and abroad. Today, the Company has approximately 3000 employees, out of which 150 designers of various specialities are permanently employed at the Designing Department "RAD", as well as such number of permanent cooperator designers. The Company owns a football club FC "RAD" which competes in the 1st Yugoslav A - League. Recently, especially in the time period from 1990 to 1998 the expansion is present at the market of Russian Federation and the former USSR.

The designs which have been realized by the Designing Department "RAD" in the time period from 1990 to 1998 are mainly constructed or their execution in carried on presently. In most cases the "RAD" Holding Company is also the constructing company, as well as other construction companies. The mentioned period characterizes the intense participation of the Designing Department of the "RAD" Holding Company, especially at the market of Russian Federation and the former USSR as well as at the Yugoslav market. The Project Head Office has been established in 1994 in Moscow within which the Designing Branch Office of the Designing Department "RAD" has been formed and it is equipped with all the latest facilities required for contemporary designing. At the Designing Branch Office designers are employed from Belgrade and are posted to that office with regard to work requirements. Over eighty designers from the Designing Department have passed through this Branch Office in the past period. In such manner the elaboration is enabled of the portion of design documents in situ, permanent follow-up of the Russian Regulations, cooperation with Russian designing departments and Institutes, as well as the designer's follow-up of the site construction. In the further text the most significant projects in the country and abroad in the time period from 1990 to 1998 are mentioned:

Thank You for Your attention.

Yours sincerely,

Designing Department Manager
"RAD" Holding Company

Amsterdam, May 25th, 1998
